The food

The Yellow Kitchen serves the best local and Estate-sourced produce wherever possible, making the most of what Cowdray has to offer. At the heart of their menus is a passion for using seasonal produce to create the best flavours throughout the year. There is a dedicated gardening team who are also in the planning stages of creating The Walled Garden's very own herb garden, enabling the use of fresh ingredients for food and drinks. The Cowdray Estate also employs an active bee team that tend to over 500 bees on the Estate whose honey is collected and used to add wholesome sweetness to their dishes and cakes.

Bon appétit!

The favours
