Droga Rodzino i Przyjaciele

Na wstępie chciałabym z Alicją podziękować wszystkim za waszą obecność w dzisiejszej ceremonii, oraz za słowa otuchy, pomoc, i wiele kart z kondolencjami które od was otrzymaliśmy. W takich chwilach wsparcie i pomoc przyjaciół i rodziny jest nieoceniona

Dearest Ania - beloved Sister and Aunt,

You left us so suddenly, that we are not able to understand it. You, full of life, giving us an example that every age has its rules and we need to make the most of it. You believed that life on earth is just a moment, and it's important to use it as best as possible. In response to our dinner table chat about diets, limits and rules about health, you replied "well we have to die of something." You weren't afraid to live by your own rules. Your hospitable, sociable nature, as well as your sense of humour, will stay with us for ever. We thank you so much for that.

Dearest Ania, beloved Sister - the time you were given to spend with us was decidedly too short. We had so many plans. You were my rock. Together we lived through many wonderful, but also difficult, times in our lives. We made do somehow because we had each other. Now you are not here. I have lost not only my sister but also my life companion. Today came the moment when you will no longer be by my side, but I believe you are in even better company, because you are in heaven. Dear Ania, this isn't the end of our journey. We will meet in heaven at our Lord's house where our closest ones are already waiting for us. But in this moment nothing can heal the pain I feel now. I cannot even write further. See you soon. I love you.

APPRECIATION

The family would like to thank you all for your
kind support during this time of sadness.
