Obituary

Jenny was born in 1940 - first child of Charles & Nelly Stone.

Sadly in 1947 she contracted polio and many years of her childhood were spent in hospital. Despite her disabilities she went on to attend grammar school, become an active girl guide, learnt to drive and have a daughter Mandy.

After attending the Queen Elizabeth Foundation, she became a qualified secretary.

In 1969 she bought a small employment agency which she grew into a significantly successful business.

In retirement she was able to enjoy her lifelong passion for art and spend many happy hours in her garden with friends and family.
