With Love

We would like to thank our family and friends for being here to celebrate this special day with us and the beginning of our married life together. Today would not be the same without you all.

Unplugged

It's time to sit back and enjoy the day. Please turn your phone and camera's off during the ceremony and let our photographers John and Claire capture the moments. John and Claire are happy to take pictures of you with friends and family during the reception, so please use their expertise.

Guest Book

After the ceremony, please sign our guest book which is located by the entrance in the reception room and take a picture using the polaroid camera too! We are looking forward to looking back at the memories.
