Squadron Leader Graham Murrell

As many know, Graham struggled with a number of debilitating illnesses over many years, and despite all odds, battled on.

He was on dialysis for over 8 years and suffered with Waldemstroms, Amyloidosis, non hodgkins lymphoma, skin cancer, fractures, aortic stenosis, the list goes on.

He has defied all odds, amazed the medical care teams and won the hearts and respect of all who have treated him.

Graham has been the bravest, most kind hearted man one would ever wish to know. Never complaining, always staying positive, always there for others with a listening ear, a voice of wisdom loaded with integrity and compassion, and always a sharp sense of humour.

Today we say farewell to an incredible Husband, Father, Grandfather and Great Grandfather.

We thank Graham for setting the bar for us in life, for being the most honorable yet humble human being we will ever know.

You have not lost your battles, you decided it was time to let nature take her course.

Rest in peace darling.

I will Love you... forever - *Heather*
