WELCOME & INTRODUCTION

The Unravelling -

Dementia is a cruel illness; it steals away those we love long before we lose them physically.

We could say it is somewhat like a much-loved jumper, one that you have had for ever. A security blanket, then one day, you notice that it is beginning to get holes here and there, that the buttons are falling off.

It doesn't worry you at first because you expect it, then the loose threads appear, slowly at first; then gradually faster and even if you try and re-stitch them, you realise that your beloved jumper is actually unravelling faster than you can repair it. That it's losing its shape, its form, and eventually its purpose. That all you have left is a pile of yarn and you can't find the beginning or the end, yet you know it's in there somewhere, together but apart.

Such are the effects on those we love and on their memories. But as their memories, fall gently through the palms of their hands like grains of sand.

Their love for us and ours for them, is never lost.

Family Memories of Mavis

Reflection Music: 'Unforgettable' by Johnny Mathis

The Lord's Prayer

Our Father, who art in heaven, hallowed be thy name; thy kingdom come; thy will be done; on earth as it is in heaven. Give us this day our daily bread. And forgive us our trespasses, as we forgive those who trespass against us. And lead us not into temptation; but deliver us from evil.
