Poem for our Mum

Chosen by Monica and Jackie

~

*Dementia came and took you Away,
From your family and your friends.*

*It left your mind in turmoil,
Until the very end.*

*It took you as my mother,
A girl you did become.
Searching for the answers
And looking for your mum.*

*But now that you are sleeping,
And your mind is finally free.
I pray one day, now that you're at rest,
That you'll finally remember me.*

Prayer

In the face of sorrow

We ask for the courage to carry on

And the resilience to find joy once more

*May the memory of our loved one inspire us to live life to the fullest
just as they would have wanted*

We thank you for their presence in our lives

For the laughter and shared dreams

And for the strength they demonstrated in the face of adversity

Amen
