Poem
Spiritual Love by Shamim Ali

Spiritual love, a love that transcends,
Beyond the physical, it never ends,
A connection to something greater than self,
A shared understanding, a spiritual wealth.

A love that draws individuals together,
A sense of purpose, a bond that lasts forever,
A desire for growth, a journey of the soul,
Interconnectedness, a profound role.

Unconditional acceptance, compassion, and respect,
For the other's journey, we must reflect,
Trust, honesty, and mutual understanding,
The foundation of spiritual love, expanding.

Not limited to romance, but also between friends,
Family members, and strangers, love extends,
A love that sees beyond the physical,
Connecting on a deeper, spiritual level.

Spiritual love, a divine gift,
A love that uplifts, a love that can shift,
A love that brings peace, joy, and bliss,
A love that is eternal, a love that persists.
