

# Your Person

by Charlotte Freeman

Sometimes all you really need is your person.

One person who understands you entirely, one person who  
your can share your thoughts with safely, with trust and no  
judgement.

One person who won't give up on you, nor you on them -  
no matter how tough things can get.

Sometimes all you really need is someone to just be there,  
not necessarily doing or saying anything, but to just be  
there when you need them.

Sometimes the words "I've got you" are all you need to  
here.

As you grow you really do realise that quality over quantity  
is something that must be treasured.

So hold on to them with everything you've got and make  
sure they always know that you've got them too.
